## [6674] Trading Limit

### 01 Screen overview

From this screen, customers can check their trading limit of each condition.

Acct. No.  Password

1 Hit Limit for Trade  0

2	Account Name	Product	Trade Limit		Trade Limit Per Day		Tick Limit		Order Limit
			Qty	Active	Qty	Active	Qty	Active	

## 02 Item description and usage guide

### 1 Insert account number and password

When you insert account and password, you can query your trading limit in your derivatives account.

### 2 Trading limit information

If you input correct information, you can check trading limit information of derivatives account.

Qty: Quantity of each condition

Active: If you are using trading limit, it will be displayed 'Y'.

For example:

Current price of a Future contract is 800

Quantity: 100

Tick size: 0.01

Tick limit =  $100 * 0.01 = 1$

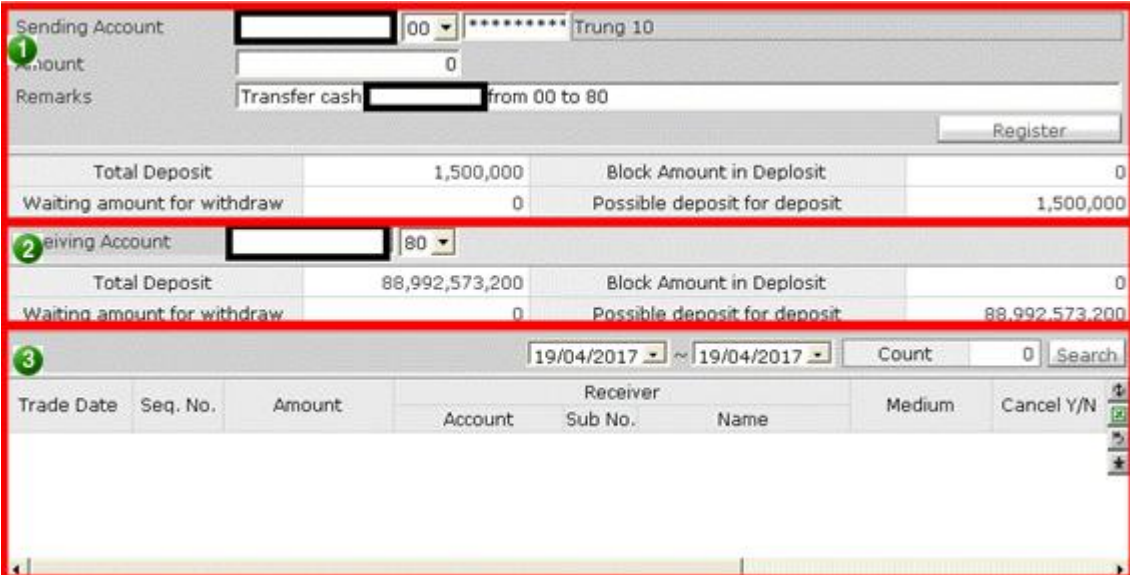

=> Upper price limit is 801 and lower limit is 799

Therefore, purchase order at price over 801 and selling order at price lower than 799 will not be accepted
